

Wend Kouni Eddie Eliel ZIDA

Big Data & AI Engineering Student | Data Science, Machine Learning & LLM

Salé, Morocco | zidaeddie@gmail.com | eddiezida.github.io | linkedin.com/in/wend-kouni-eddie-eliel-zida | github.com/EddieZIDA

PROFILE

Final-year engineering student at ISGA Rabat (Big Data & AI). I build end-to-end AI systems: a reliable data layer, rigorously evaluated machine learning models and LLM / RAG applications shipped to production. Two AI internships in 2026. Seeking an end-of-studies Data Science / AI internship from February 2027, in Morocco or remote.

EXPERIENCE

Data & AI Intern | Hakili Lab, Ouagadougou Jul. - Sep. 2026

- Designed the data, identity and traceability layer (PostgreSQL / Neon, SQLAlchemy, Alembic migrations, roles and permissions) of an LLM-assisted platform that grades handwritten math exams.
- Contributed to Chat'Maths, a RAG-based math tutor for grades 6 to 12, live at amira.hakililab.com: schema, migrations, data verification and backup scripts.
- Built and shipped www.hakililab.com: Docker image built by GitHub Actions, VPS, nginx, HTTPS.

AI Engineer Intern | 3LM Solutions (remote) Jul. - Sep. 2026

- Developed LLM modules for a conversational analytics engine that reviews sales calls, in NestJS / TypeScript.

Field Survey Agent | ISSP Burkina Faso, Tenkodogo Aug. - Sep. 2023

- Collected and quality-checked socio-economic field data for a national survey.

PROJECTS

Griot: strict-RAG news agent | github.com/EddieZIDA/griot

Python, Gemini 2.5 Flash, Chroma, Shiny, Docker, GitHub Actions, pytest

Conversational agent that answers only from ingested press articles (West African, world and tech RSS feeds), with numbered citations. Automatic ingestion every 6 hours through GitHub Actions.

AeroRisk: aviation accident severity prediction (pair project) | github.com/EddieZIDA/aviation-risk-predictor

Python, XGBoost, MAPIE, Flask REST API, MongoDB, React / TypeScript, Gemini API, GitHub Actions

36,260 NTSB events (2008-2026) joined with NOAA weather data, leak-free temporal split, XGBoost selected over 5 models. Conformal prediction: 89.97% coverage for a 90% target, AUC 0.727. LLM-generated safety reports, 53 pytest tests.

Bank customer churn: ML model industrialisation | github.com/EddieZIDA/churn-prediction

Python, LightGBM, SHAP, MLflow, GitHub Actions, pytest, Streamlit

Churn risk scoring on 10,000 customers: 8 models benchmarked, AUC-ROC 0.87 and Recall 89.9% at a threshold calibrated on business cost. 123 pytest tests, live Streamlit application.

Urban Stress Index: Smart City regression | github.com/EddieZIDA/SmartCityTraffic-StressIndex-Prediction

Python, XGBoost, LightGBM, scikit-learn, MLflow, Streamlit, Plotly

Pipeline on 50,000 observations, multicollinearity control (VIF), 4 models benchmarked. Tuned XGBoost: R^2 0.909 and RMSE 4.90. Live Streamlit application.

Kaggle House Prices: regression | github.com/EddieZIDA/KaggleCompetition_home-price-prediction

Python, scikit-learn, XGBoost, LightGBM, CatBoost, Optuna, pytest

15 engineered features, 8 models tuned with Optuna, weighted blend and stacking. RMSLE of 0.1071 in cross-validation and 0.11548 on the public leaderboard.

TECHNICAL SKILLS

Languages	Python, SQL (T-SQL, PL/SQL), TypeScript
Machine Learning	scikit-learn, XGBoost, LightGBM, CatBoost, MAPIE, SHAP, Optuna, MLflow
Generative AI & LLM	LLM APIs (Gemini, Claude), RAG, tool calling, prompt engineering, Chroma
Databases	PostgreSQL, SQL Server, MySQL, Oracle, MongoDB, SQLAlchemy, Alembic
APIs, DevOps & MLOps	Flask, FastAPI, NestJS, Docker, Git, GitHub Actions, pytest
Cloud & visualisation	Google Cloud (GCP), Hadoop, Power BI, Plotly, Streamlit

EDUCATION

Master of Engineering, Computer Systems Engineering: Big Data & AI | ISGA Rabat 2024 - 2027

Preparatory Classes for Engineering Schools (CPGE), Maths & Physics | INSUP La Salle, Ouagadougou 2022 - 2024

CERTIFICATIONS

Smart Analytics, Machine Learning and AI on Google Cloud (Google) · Mastering Supervised Learning (OpenClassrooms) · Data Analysis with Python (freeCodeCamp) · Data Scientist Associate (DataCamp, in progress)

LANGUAGES

French: native | **English:** intermediate (B1/B2)
